DGGF's Seed Capital and Business Development (SC&BD) facility is supporting Kobo Hub by providing mentoring support to professionalize their operations and build their service offering for start-ups.

Kobo Hub is an accelerator based in Kinshasa targeting young entrepreneurs whose startups offer local services and solutions. Kobo Hub's work addresses the lack of comprehensive and practical services for entrepreneurs in the Democratic Republic of Congo (DRC).

Despite being a young initiative – established in May 2018 – Kobo Hub has grown considerably and has ambitious growth plans to impact the startup ecosystem in Kinshasa.

DGGF-SC&BD will provide mentoring support to shorten Kobo Hub's learning curve and combine international best practice with local expertise in their operations. Mentoring support will provide the team with the tools and capacity to scale their initiative and become a sustainable, impactful player in the DRC ecosystem.
