Greening SMEs through rooftop solar panel funding

Electronica Finance Limited (Electronica) is a female-led Non-Banking Financial Company (NBFC) in India, and the first NBFC catering to SMEs for machine finance. As part of the SRP Electronica Group it offers a large product portfolio, including loans for SMEs for rooftop solar.

Through its investment, DGGF provides essential support to Electronica to expand its loan portfolio for rooftop solar panel funding, aiming at a minimum of 10% portfolio share in the long-term. Electronica is already serving the solar panel ecosystem in industrial and commercial sectors and has piloted in the residential sector as well. By increasing and stabilizing its rooftop solar panel funding, Electronica will offer SMEs green products which supports income generation of the SMEs in India.

Investment

DGGF commits a senior loan of EUR 5 million
