## Empowering women-led SMEs in Vietnam

Asia Business Builders II (ABB II) is a Private Equity firm domiciled in Singapore, operating in Vietnam. With a focus on investing in SMEs, ABB II utilizes equity and quasi equity instruments to fuel the growth and success of these businesses. Instead of focusing on a specific sector, ABB II identifies investment opportunities driven by consumer demand. This approach allows ABB II to explore various sectors, including healthcare, agriculture and food, logistics, business services, and education.

Building on the achievements of its predecessor, ABB I, ABB II is committed to further empower women-led SMEs in Vietnam. DGGFs investment enables ABB II to increasingly provide financial support and expertise to these SMEs, ultimately leading to new job opportunities, rising revenue growths, and a boost of knowledge transfer to the portfolio companies.

### Investment

DGGF commits a loan of USD 10 million
