Andes Plus Fund I LP (APF I)

APF is a mezzanine fund with a term of 10 years (closed-end). APF will invest in inclusive companies in the agricultural chain in Peru and Colombia with potentially small investments in Paraguay, Bolivia and Ecuador.

Sector

Sustainable Agribusiness, Light Manufacturing, Inclusive Technologies

Total investment

Approximately USD 10 million / EUR 9 million (based on current exchange rate). With this investment, the DGGF contributes to an expected fund size of USD 20-30 million.

Fundmanager

Andes Plus Fund GP

Impact

APF focuses on for-profit companies that provide goods and services and generate jobs and sustainable incomes for disadvantaged communities. APF involves them as suppliers, retailers, employees or consumers in the value chain.

SMEs in the agribusiness value chain in Peru and Colombia are significantly underexposed financially. With its mezzanine offering, APF targets a unique niche in the local market where hardly any financial service providers are active.

With the investment in APF, DGGF is expected to support about 580 jobs and create 220 new jobs. The fund will focus on contributing to gender equality at SME level. This focus manifests itself in the incentive structure of the fund manager.
